

Online Late Registration for Spring 2008

Any player registering after the published deadline of Tuesday, January 8, 2008 will automatically go into a player pool.

Due to the high number of players who contact CYSA registration after the registration deadline, we are implementing an easier method to get a player registered late.

Late Registration is now available online.

Using this Online Late Registration in no way guarantees a player placement on a team! It is being offered as an easier way to attempt to get onto a team.

To late register online, click on the Late Registration link located on the homepage under the Spring 2008 Online Registration heading. Follow the prompts to complete the registration. There will be no payment required at check out. This will be collected when and if your player can be placed onto a team. At that time, CYSA office staff will contact you to ask for payment and any required documents on your player. Payment can be made over the phone with a credit card or dropped off at the CYSA office within 24 hours. Required documents (birth certificate for new players or release paperwork for non-Coppell residents) must also be supplied within 48 hours of notification.

Players will be taken out of the Online Player Pool and placed on teams based on a first come, first served basis per age division. CYSA will use the online registration system's date and time stamp of each player's registration to determine the order of placement per division.

Because this method is so much easier for parents and the office staff, we do ask that you use this method exclusively for late registration.
